Main Business

PC Peripheral part
The first business what we did is manufacturing electronics consumer as a Keyboard and Mouse.
Our engineer has been well known of the device with accumulated know-how and now provides various types of goods with the regular customers from the beginning
Today's internet trend has been changed and focused A/V function more, we also provide PC speaker, Headset, Bluetooth devices and PC Cam.

Memory part
Our technology to design various types of UFD (USB Flash Drive) has been reached the customer's needs every time.
We convince to design either SIP or SMT what customer would like it to be. Needless to say only UFD, we also supply various memory types to local market as DRAM, SD MMC and HDD.

Power part
One of critical components for desktop PC and note PC should be a power supplier named SMPS.
There are lots of steps for its reliability test moreover the standard is absolutely strict itself. In spite of strict quality assurance, we are well managed to provide SMPS (Switching Mode Power Supplier), Adaptor and Charger with world number one company until today.
